Housekeeping Matters. Mice and Rais.-Red pepper inserted in their holes and ruos wil drive these pests

To Cleanse a Sponge.-Put a little powdered carbonate of ammonia in water, and lay the sponge in it for a few days, and it will be cleaned. To Froth Chocolate (French Manner.)-

This is done by means of a little wooden in-strument, and is called "milling." It is placed in the chocolate pot, and the handle is rolled backward and forward between the palms. Lemon Pic. - Take two lemons, peel and

grate the riad; of the remainder express the juice and cut in small pieces; add one egg and one and a half soda crackers; water enough to fill the pie; sugar to taste.

Rhubarb Tart. - One pint stewed rhubarb or pie plant, four ounces of sugar, one half pint cream, two ounces pounded cracker, three eggs; rub the stewed rhubarb through a sieve, best the other ingredients well, bake with a bottom crust only, half an hour.

Potato Balis for Breakfast .- To three cups of cold mashed potatoes add one cup of sweet cream, a little salt and two well-braten eges. Mold into little balls; put on a baking pan, and set in the even until done a delicate brown, or, if preferred, fry in boiling lard.

To Wash Window Glass .- In washing glass never use soap; wash off the dirt with clean warm water. After the glass is dry, rub alt tle paste of whiting and water in the centre of each glass; with another cloth rinse over the glass, then rub it with a dry cloth till it shines

like crystal. Strawberry Short-Cake. - Mix some dough precisety as you would do for biscuit, bake in one cake or a round tip. When it is baked, split it open and butter it well. Have your berries prepared with sugar, and cream also, if you like; pour them upon the lower crust of

your cake, and place the upper one over them. Gelatine Frosting -Oue teaspoonful of gelatine, two tablesponfuls of cold water; when the gelatine is soft, one tablespoonful of hot water. When entirely dissolved add one cup of powdered sugar, and beat while it is yet warm until white and light; lemon to taste. Give good measure to all the ingredients. This frosts one sheet of cake.

Something Always Ready to Mend China .-M'x a little lime with the white of one egg: to use it take a sufficient quantity of the egg to mer d one article at a time; shave off a quantity of the lime and mix thoroughly; apply quickly to the edges and place firmly together, when it soon sets and becomes strong. Calcined plaster of parts will answer the purpose of lime.

Laundry Blue .- A good washing blue is made as follows: Make a solution of prussiate of potash. two ounces, and another of protosulphate of iron, one ounce; add the second gradually to IN DAMASSE, the first, until the precipitate almost ceases to fall, then strain through lineo, add water, and continue the washing until the blue color begins to dissolve in it, when it may be at once dissolved in distilled water and dried.—New York

PRICES OF LADIES DRESSES -It seems an absurdity for a woman to sit down to make a dress newadays, for in every large establishment dresses are to be obtained in apparently limitless profusion, and in styles as diversified as need be to suit many different tastes. Beginning at morning wrappers, there are dresses of print completely made for \$1.10, and these rise in style and price until in cambric they reach \$3.50, and are really sice enough for any lady to wear upon a summer marning. There are elaborate suits of cambric and French percale, \$5.50 and \$6.50, made in different styles, with overskirts and jackets or new princess polonaises, was side pockets, flounces upon the lower skirts, and in the favorite chocolate or dark blue. There are lineus-linens in suits and lineus in costumes, lineus embroidered and linens trimmed with laces, linens ecru and lin ens brown or dark blue, and linens which are only of the simple, unbleached material for enough?—but there are more. There are suits of "wash" poplin composed of three pieces, trimmed with plaiting the formal of the pieces, trimmed with plaiting the pieces, the pieces of the pie trimmed with plaitings, for \$5; of mohair from \$10 to 15 and of fine mohair poplin, in a fashtonable combination and fashionably made, for \$22. There are combinations of siik and mohair or silk and cashmere from \$25 to \$35; sum mer silks from \$35 to \$75 and black silks and granadines from \$40 to \$150. This list is not taken from common factory-made goods, but from the stock of a large and reputable estab-

MR CARPENTER AND THE SENATE -In addressing the Senate sitting as a Court of Im peachment, Mr. Carpenter, of Belkoap's coun sel, sometimes speaks with a freedom which very naturally annoys certain members of the Court. Just prior to the adjournment the other day Mr. Thurman, in the course of a few remarks said, referring undoubtedly to Mr. Carpenter, that "the Senate had been treated with scant respect, and the law with less." Soon after Mr. Carpenter walked over to Mr. Thur man's desk, and laying one hand on the Judge's shoulder, extended the other. The Judge detalking very earnestly, occasionally bringing his fist down upon his dest in an emphatic naturedly and finally get forcible possession of one of the Judge's "flippers" and shock it heartly. Subsequently Mr. Carpenter returned to Mr. Thurman and familiarly placed his hand on his shoulder apparently placed his hand on his shoulder apparently saying something pleasant. The Senator, who was apparently still greatly aunoyed, rather roughly shook it off, and Mr. Curpenter, despairing of a reconciliation, at least, at that time, withdrew. It is a circumstance which has been noted by all who have heard him that Mr. Carpenter frequently passes the bounds of decorum in addressing the Court, and waether intentionally or not, that he sometimes reflects on the fairness and impartiality of that body, and haps, under the circumstances, Judge Thurman was quite justified in feeling annoyed at my 4 E. S. LEADBE TER & BRO. his remarks a few days since .- Wash. Star.
